

Scholarships for postgraduate students from Uruguay to study in the UK

Harper Adams University and the National Research and Innovation Agency of Uruguay (ANII) are providing five scholarships for PhD, MSc and MRes degrees at the British university.

- **Animal Production, Welfare and Veterinary Sciences**
- **Crop and Environment Science**
- **Agricultural Engineering**
- **Food Science and Agri-food Supply Chain Management**
- **Land, Farm and Agri-business Management**

ANII will contribute up to:

- \$20,000 for one year Masters programmes
- \$40,000 for two year Masters programmes
- \$60,000 for three year full and sandwich PhD programmes
- \$80,000 for four year full and sandwich PhD programmes

Two MSc/MRes scholars will be awarded a 50 per cent discount towards their tuition fees while all other applicants will receive a 20 per cent discount, including PhD scholars.

Prospective scholars have to first apply to the university for their course. Following acceptance, they can then apply to ANII for a scholarship which makes a significant contribution to the cost of their tuition fees, airline tickets, accommodation and health insurance.

Harper Adams University: tackling global challenges

Harper Adams University is a leading specialist institution tackling the future development of the planet's agri-food production, processing, animal sciences, engineering, land management and sustainable business.

Established in 1901, the university has been delivering vital agri-food education for more than a century. Harper Adams University is part invention hub, part think tank, part industry, part 640 hectare farm. The University is currently ranked 17th in The Times and The Sunday Times Good University Guide 2020, the highest ranking ever achieved by a modern university.

We have a thriving and growing international student community on campus, are creating ever more relationships with overseas institutions, and developing international research and study opportunities. Students come from more than 30 different countries, including Cameroon, Canada, Ghana, Indonesia, Iraq, Malawi, Nigeria, Poland, Serbia, Slovakia, Syria, Thailand and the USA.

Around a third of our research students are international, many from developing and emerging economy countries and are primarily working on food security projects.

Many of the awards presented to Harper Adams University are thanks to the excellent student experience and teaching quality on offer, along with graduate prospects. It was named University of the Year at the Whatuni Student Choice Awards in 2016 and 2017. In 2016 it was named The Times and Sunday Times Complete University Guide Modern University of the Year and for 2017 and 2018 it has maintained its position as highest ranked modern university. It has been awarded Gold twice in the government's Teaching Excellence Framework (TEF).

THE QUEEN'S
ANNIVERSARY PRIZES
FOR HIGHER AND FURTHER EDUCATION
2017

“Harper’s more than just a university, it’s more like a family. It’s been a unique and fantastic experience studying here.”

Gustavo Barboza Martignone (from Uruguay),
MSc International Agri-business and
Food Chain Management

TEF Gold

“

Harper Adams University delivers consistently outstanding teaching, learning and outcomes for its students. It is of the highest quality found in the UK.

”

TEF judging panel

Master's courses

Agricultural Production

Agricultural Sciences and Production Systems, Forestry Management, Ruminant Nutrition

Applied Ecology

Agroecology, Conservation and Forest Protection, Ecological Applications, Entomology, Integrated Pest Management, Plant Pathology,

Agri-Food, Business and Economics

Food Industry Management, International Agri-business and Food Chain Management, Agricultural Economics, Business Economics

Engineering

Applied Mechatronic Engineering, Data Science for the Global Agriculture and Food Industry, Engineering Business Management

Veterinary

Advanced Veterinary Nursing, Veterinary Pharmacy, Veterinary Physiotherapy

Land Management

Rural Estate and Land Management

Potential MRes areas:

- Agribusiness Management • Agricultural Economics
- Agricultural Policy • Agricultural Science • Agroecology • Applied Ecology • Applied Mechatronic Engineering • Applied Rural Criminology • Conservation and Forest Protection • Entomology
- Entrepreneurship and Innovation • Food and Public Policy • Food Industry Management • Food Supply and Retail Management
- Food Safety and Security • Forestry Management
- Humanitarian Assistance and Disaster Management
- Integrated Pest Management • International Business Management • International Supply Chain Management
- International Trade of Agricultural Commodities • Land and Property Management • Marketing • Mechanical Engineering (Bioengineering) • Plant Pathology • Post-Harvest Technology
- Precision Farming • Quantitative Analysis in Agriculture
- Renewable Energy • Ruminant Nutrition • Rural Entrepreneurship • Security, Stabilisation, and Conflict • Soil and Water Management • Soil Science • Strategic Management
- Sustainable Agricultural Development • Sustainable Agricultural Technology • Urban Agriculture
