### Short description of the organisation

*Provide a short description of the equipment available, the relations with the industry, the profile of the main researchers*

Our association was established in 1996 in order to find solutions to the sectoral problems of the private sector port and pier operators in Türkiye. As of 2021, 67% of general and dry cargo in Turkey; 100% of the liquid chemical cargo; 95% of containers handled; %89 of automotive foreign trade have been carried out by TÜRKLİM member ports.

### Specific skills related to the project

*Indicate the specific skills and competence in relation with “ **HORIZON-CL5-2024-D6-01-06 Optimising multimodal network and traffic management, harnessing data from infrastructures, mobility of passengers and freight transport**” topic*

We can provide raw data and field expertise in addition to maritime ports where early pilot activities on multimodal network and traffic management of limited scale can be executed for demonstration purposes.

### Proposed activities for the project

*Indicate which activities you would like to implement during the project*

- Improving port efficiency and reducing fuel usage by minimizing mooring time
- Optimizing vessel capacity usage by coordinating cargo owners
- Bringing port operator's perspective
